COMPANY HSE POLICY

1.0 GENERAL SAFETY RULES:

The safety of the worksite is the responsibility of the site Engineer, the foreman and all employees. The following safety rules should be observed.

- i. All accidents should be reported no matter how small.
- ii. Report unsafe conditions, bad tools and any other equipment that will cause accident.
- iii. All workers clothing should fit property and be in good condition.
- iv. Do not work under a load carried by power operated equipment
- v. There should be no horseplay, or drinking of alcohol beverages or fighting during work.
- vi. Never operate electrical tools while standing on wet surface.
- vii. Know what hazard can occur in your job assignment
- viii. Know what protection is available.
- ix. Know how to prevent any accident that may occur.

2.0 GOOD HOUSE KEEPING.

Good house keeping involves taking proper care of our immediate surroundings. This results in fewer accidents.

Oil spill or leaks should be cleaned up properly or covered with absorbent materials, tools and equipment. A job is not completed until the area is cleaned up.

Fire Safety

Fire can be caused by the following factors

- ❖ Fuel Storage
- ❖ Vehicle Malfunction
- ❖ Paint, solvent and substances
- ❖ Gas Cylinders
- ❖ Combustible waste, such as oily rags
- ❖ Wood, paper and packaging
- ❖ Electrical Short circuit
- ❖ Smoking in bed
- ❖ Kitchen fire
- ❖ Lighting

Except at open site area, fire extinguisher of types are placed close to where these hazards exist.

3.0 ACTION IN CASE OF FIRE

If you are the first person at the scene of a fire;

- Check to see if any one is hurt.
- Raise the alarm.
- If it is safe to fight the fire then do so.

COMPANY QUALITY POLICY

Our Company will operate and continually improve a management system that meets BS EN ISO 9001:2015 to ensure that quality, product and client standards are met and approved, thus;

The Policy is to be achieved by:

- Providing products and services which meet agreed client requirements
- Setting and reviewing measurable quality objectives and ensuring those objectives are met
- Reviewing the effectiveness of the quality management system and assessing opportunities for its continual improvement
- Providing the necessary resources and ensuring responsibilities and authorities are determined and communicated within the our company.
- Having processes that are systematic and effective whilst learning from best practice and continually improving
- Meeting all applicable legislative and regulatory requirements
- Training and development of the company staff to ensure suitably skilled and competent persons

Management

A sheet of white lined paper with a red header and footer. The paper contains 20 horizontal lines for writing, arranged in a single column. The lines are evenly spaced and extend across most of the width of the page. The red header is at the top, and the red footer is at the bottom, both with a slight curve. The central area is white and contains the writing lines.
